## **“EMBRACING CIRCULAR BIOECONOMY”**

At Frenvi, we acknowledge circular bioeconomy as the only viable solution for living sustainably within our planet’s limits. Waste reduction and repurposing present both a challenge and an opportunity, contributing to a zero-waste future. In collaboration with our community, we aim to create a sustainable future rather than merely discussing it.

# PRODUCTS MADE BY UPCYCLING CROP-WASTE

We prioritize the only planet we have, our earth!  
Our high-quality products are crafted from sustainable bio-composites made with responsibly sourced crop residues like coffee husk, rice husk, rice straws, bamboo husk and more. Plus, they're designed with circularity in mind.

“Nature's wonder material, **Bamboo**, grows incredibly fast, outpacing all other plants in CO2 absorption. As strong as steel, it offers an eco-friendly alternative with the lowest carbon footprint when used in manufacturing of various products.”

“The aroma of freshly brewed coffee is a surefire way to start the day feeling energized. But it doesn't stop there. Thanks to innovative uses of **coffee husk**, you can enjoy your morning cup knowing it's a sustainable choice. It's a win-win for your health and the environment!”

“Rice, a nutritious and widely consumed grain, is a global staple food. By using products made from **rice husks & straws**, we can help farmers avoid crop burning, a harmful practice for our planet.”

# TAKE URGENT ACTION TO COMBAT CLIMATE CHANGE AND ITS IMPACTS

## EARTH'S TIPPING POINT

STANDING AT THE BRINK OF CLIMATE CALAMITY

### WHERE WE ARE

THE WORLD WILL  
EXCEED 1.5°C BY 2035  
AND FACES A 2.5°C  
WARMING BY 2100

### WHAT WE NEED

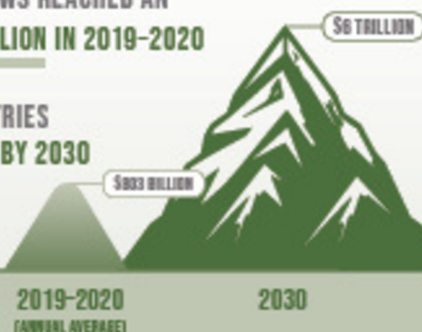

DEEP, RAPID AND  
SUSTAINED GHG  
EMISSION REDUCTIONS  
BY 43% BY 2030  
AND TO NET ZERO  
BY 2050

### BILLIONS TO TRILLIONS:

GLOBAL CLIMATE FINANCE FLOWS REACHED AN  
ANNUAL AVERAGE OF \$803 BILLION IN 2019-2020

HOWEVER, DEVELOPING COUNTRIES  
REQUIRE NEARLY \$6 TRILLION BY 2030

THE RATE OF  
SEA-LEVEL  
RISE HAS  
**DOUBLED**  
IN THE  
LAST DECADE

### HIGHLY VULNERABLE REGIONS

EXPERIENCE **15X HIGHER MORTALITY RATES** FROM DISASTERS  
COMPARED TO VERY LOW VULNERABILITY REGIONS (2010-2020)

The background of the image is a white surface covered with numerous small, cup-like objects. These objects are made of a textured material, possibly recycled paper or cardboard, and come in a variety of colors including green, yellow, red, brown, and beige. They are arranged in a scattered, overlapping manner, creating a dense, textured field. The text is centered over this background.

WE ARE  
BUILDING  
A WORLD  
WITHOUT  
WASTE,  
ONE CUP  
AT A TIME.
